Yahoo Group Downloader Activation Key

Yahoo Group Downloader is a lightweight Windows application whose purpose is to help you download pictures, files, and text messages from Yahoo! Groups, more specifically from Files, Photo and Message Section. Clean layout The utility gives you the possibility to manage multiple Yahoo! profiles. In order to be able to download data from Yahoo! Groups, you need to sign in using your Yahoo! credentials (username and password). The tool automatically lists the available groups in the main window and lets you select the ones that you want to process. In case you do not manage to decode the configuration settings on your own, you can have a look at the help manual. Downloading options Yahoo Group Downloader supports batch processing, which means you can download files from multiple groups at the same time. When it comes to downloading tweaks, you can pick the saving directory and grab files, images, messages, or message attachments. In addition, you can make the utility skip previously downloaded files, hide the picture viewer, change download sequence, as well as debug downloads. The program lets you perform searches to identify groups, mark the selected group as favorite, log out from the current Yahoo! account and switch to another one, add new groups manually to the list, as well as export the configuration data to a file on your computer so you can import it in your future projects. Last but not least, you are given the freedom to import Yahoo! Group messages directly to Outlook, Outlook Express, and Thunderbird, and convert Yahoo! message to Word document. General configuration settings Yahoo Group Downloader allows you to set up the maximum number of concurrent downloads, grab duplicate files, specify the timeout and interval between two downloads, apply filters by image extension (e.g. BMP, GIF, JPG), ignore photos from several servers, and enable post-processing actions upon task completion, like play sound notification and automatically log out. Final words All in all, Yahoo Group Downloader comes in handy in case you want to detect and download images and messages from Yahoo! Groups using automatic actions. The straightforward GUI makes it suitable for rookies and professionals alike. This is a nice little utility which I use on a daily basis. It allows you to download files from any site you please (you do need a Yahoo account though). It's not a huge feature set compared to some other download managers, but I've needed it enough to want to use it. I find the 09e8f5149f
